

UX Design Audit

By: Walaa Ghanduri

Date: 4th of October 2026

Area	Current Implementation	Intended Design	Recommendation
The logo – top left side of the page	Written brand name with basic Moodle fonts	The OAPA official logo	To remove the current written brand and replace it with the OAPA's official brand logo
The left navigation panel – tab colour	When the user is in a tab, it turns blue to show the system status	The tab should match the OAPA branding which should have a black background and white text	To change the colour of the tab
The left navigation panel – progress indicators	The progress indicators are not implemented consistently throughout the course	Consistent progress indicators under each tab	Add progress indicators in each tab. The condition for completion should also be considered.
Secondary navigation tabs colour	The tabs in the secondary navigation are coloured blue	All the tab names should be in black	Change the colour
Secondary navigation tabs	The tabs have five headings	It should be six	Remove the 'Activities' tab and add 'Assignments' and 'Quizzes'.
Secondary navigation tabs – architecture	The tabs are not sticky and hard to return to	The tabs should be sticky, and are structured over the course name	Shift the tabs up higher and make them sticky
Main content area	The main content area contains navigation	There should be no navigation in the main content area	Create landing pages for every module to eliminate the navigation. To navigate to the next page buttons should be added with the style specified or shown in the mock-ups.
Secondary navigation tabs	The left panel appears even when the tab is not 'Course'	The left navigation panel should be closed when the user navigates any other tab	Make the panel close by default when the user clicks on any other tab
