Card Task 87 Prepare the completed local Moodle implementation as the guaranteed final client artefact and document exactly what OAPA receives

By: Reshan Lahandapura (Dev 1)

Documentation Creation Date: 26/10/2026

Site: My own shared LOCAL Moodle

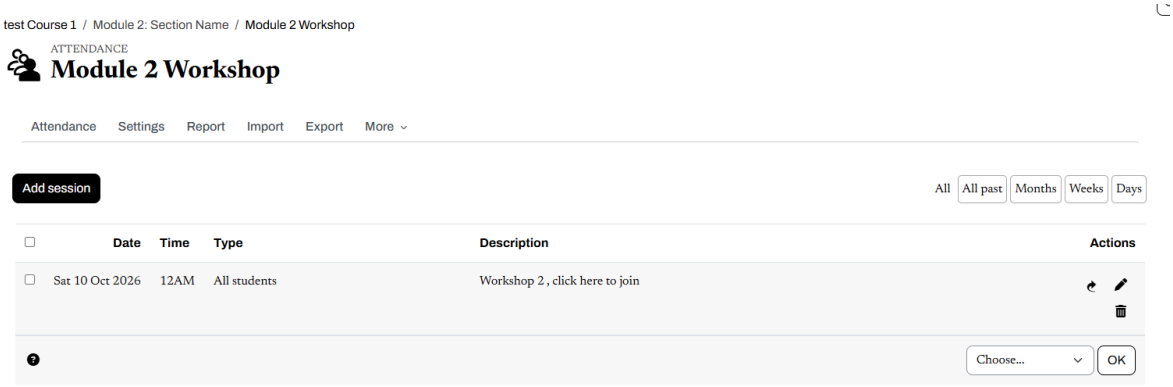

The primary users here are the admins, teachers, course creators and students and the main product OAPA will recieve is the reusable courese template

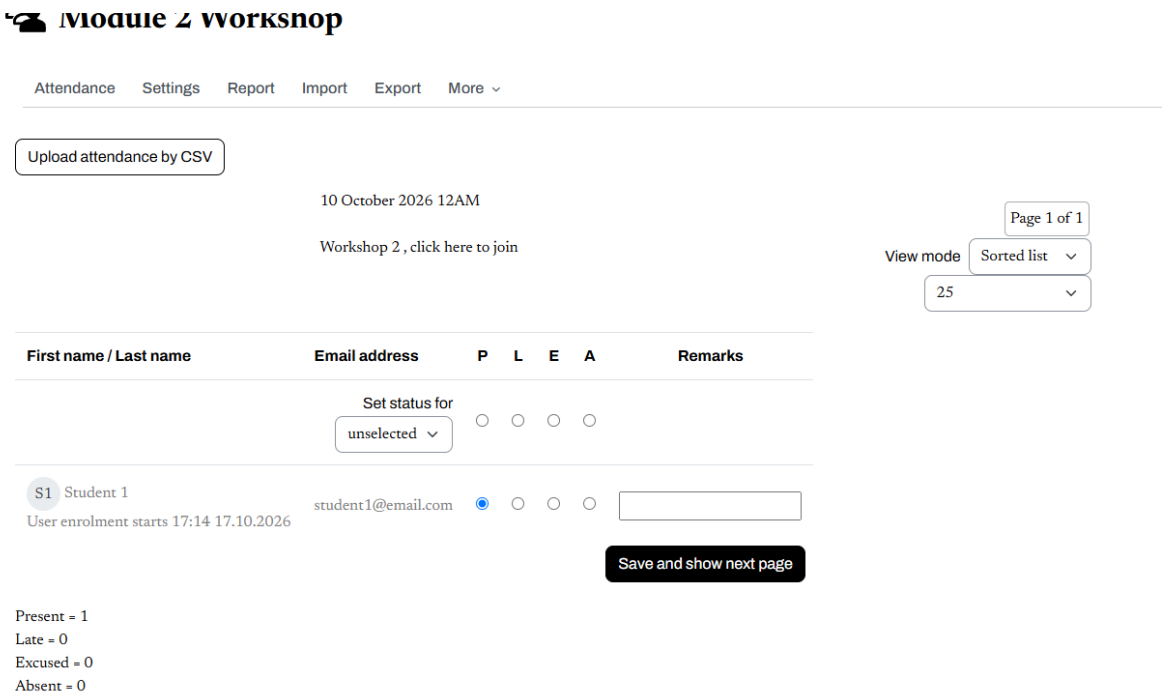

The packaged Local Moodle

Here on the following link is the updated github repo where all the work was done and can be extracted: S4090860/Local-Moodle

Moodle workshop configuration

Workshops are configured in a way that there is a set session with teachers being able to manually mark students as present, late and absent

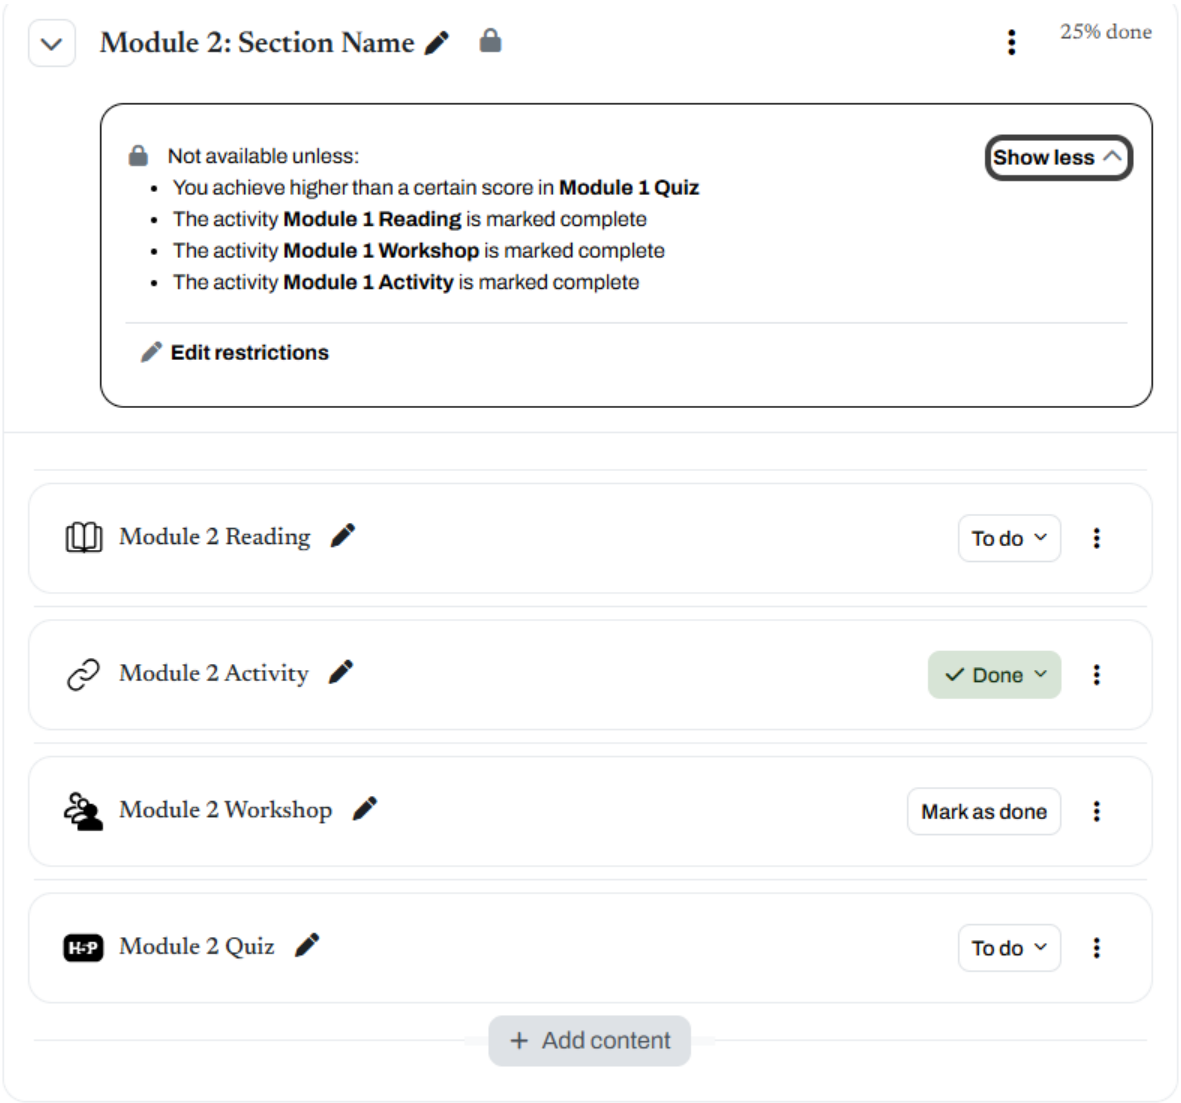

Moodle progression/restriction configuration

- Module 1

Module 1 does not have any restrictions

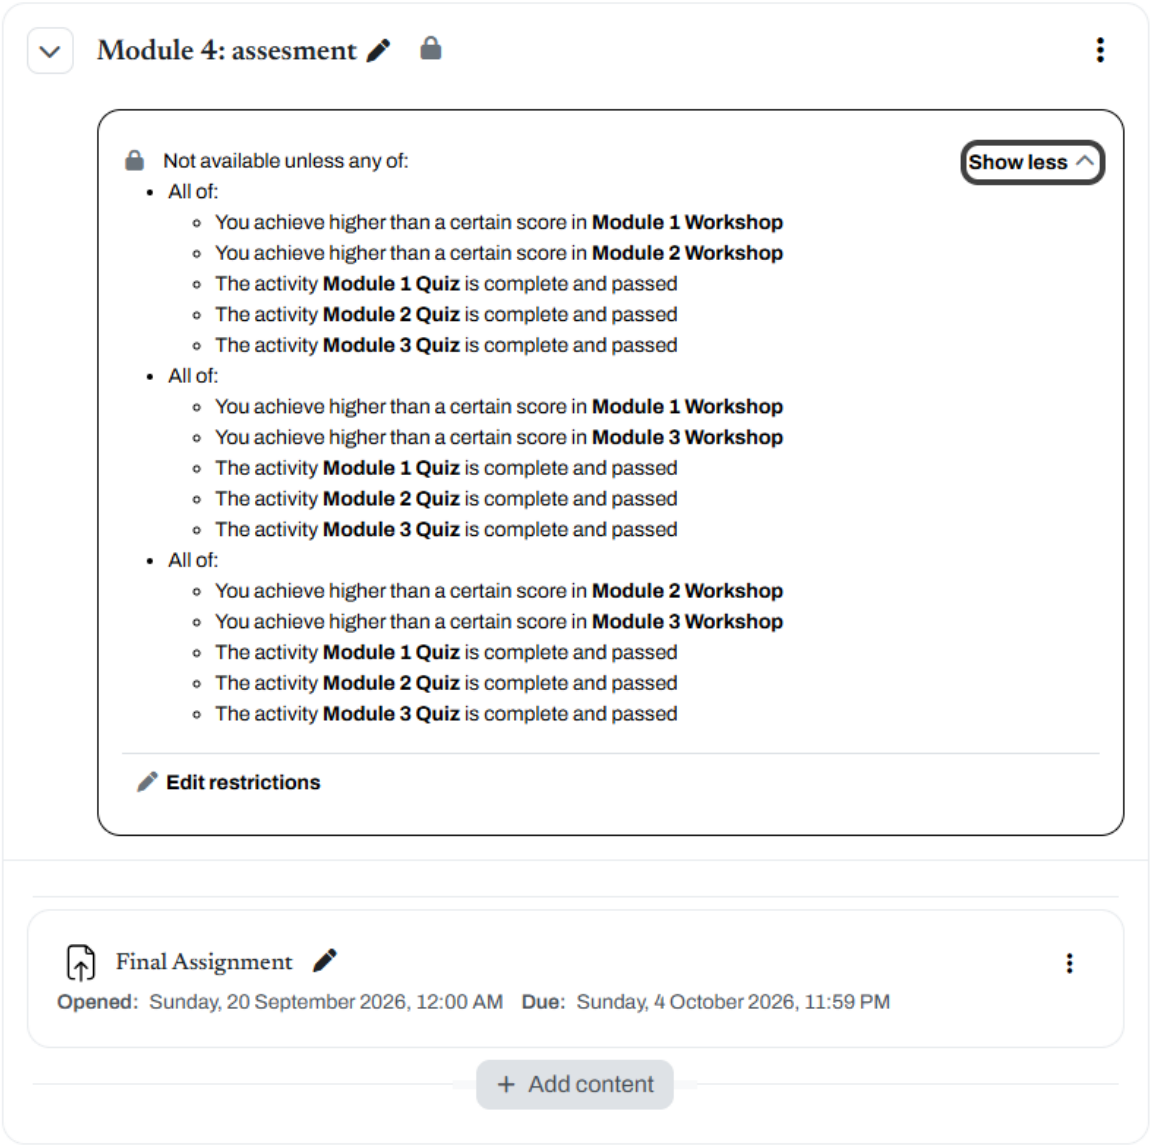

- Module 2

Module 2 requires all of module 1 to be completed as well as the quiz having its grade requirement passed

- Module 3

Module 3 requires all of module 2 to be completed as well as the quiz having its grade requirement passed

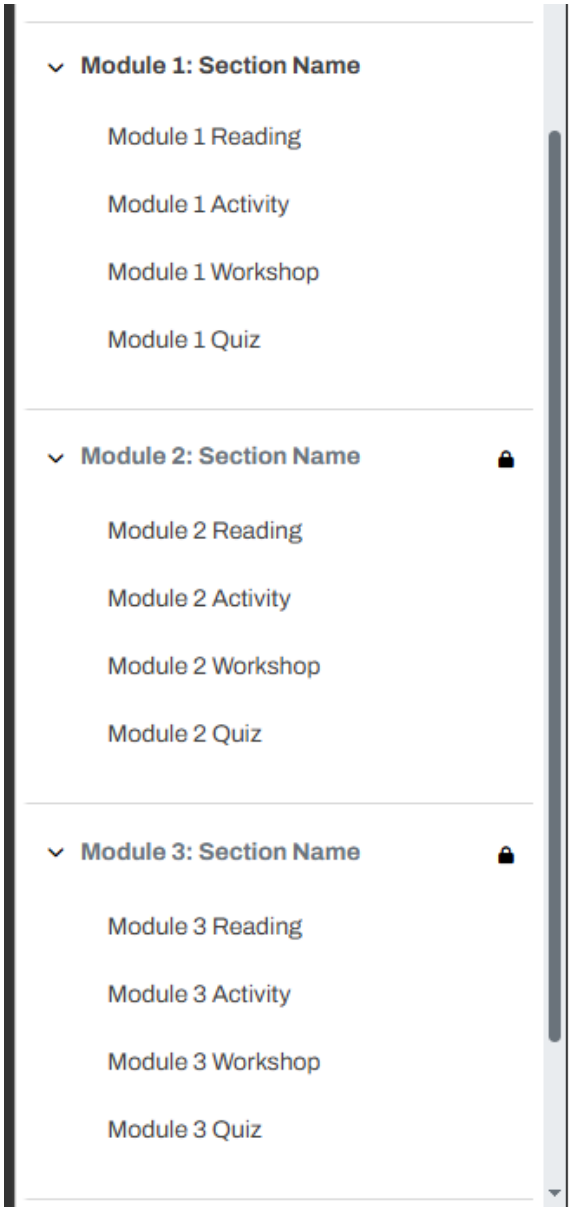

- Module 4 - assessment

Module 4 requires all the module quizzez to be passed as well as having 2 workshops attended

Moodle content placement

Module 1, 2 and 3 maintain the same content structure with reading first, activity after then workshop with quiz last and this is standard for modules 1 – 3.

Required Import Files

backup-moodle2-course-2-test_Course_1-20261027-1117.mbz is required to be downloaded then dragged into the upload backup file section

Use a backup file to restore a previous version of a course, or to create a new course.

Upload a backup file
