Content Replacement Process proof

These screenshots in this section will be from the TEACHER VIEW

- Options to edit without moving structure

as shown, there is content editing options with needing to move around modules to do so

- Content replacement process is doable

Content Expert Steps

Re-using the template

1.

D

Team 74 - Course Development

[Course](#) [Settings](#) [Participants](#) [Grades](#) [Activities](#) [More ▾](#)

Course reuse

[Import](#)
[Backup](#)
[Restore](#)
[Reset](#)

2.

Import ▾

Import items from other courses, such as activities, blocks or calendar events. No user data will be imported.

1. **Course selection** ► 2. Initial settings ► 3. Schema settings ► 4. Confirmation and review ► 5. Perform import ► 6. Complete

Find a course to import data from:

Select a course

Total courses: 2

	Course short name	Course full name
☐	TEAM74-DEV	Team 74 - Course Development
☐	FAPR_dev	Foundations of Academic Peer Review - Student Dev Copy

3.

Import items from other courses, such as activities, blocks or calendar events. No user data will be imported.

1. Course selection ► **2. Initial settings** ► 3. Schema settings ► 4. Confirmation and review ► 5. Perform import ► 6. Complete

Import settings

- ☐ Include permission overrides
- ☒ Include activities and resources
- ☒ Include blocks
- ☒ Include files
- ☒ Include filters
- ☐ Include badges
- ☒ Include calendar events
- ☒ Include groups and groupings
- ☒ Include competencies
- ☒ Include custom fields
- ☒ Include content bank content
- ☒ Include legacy course files

[Jump to final step](#) [Cancel](#) [Next](#)

Finally click Jump to final step, scroll down and import

Doing this will import the template as it is, include activities and blocks is unticked to avoid duplicate blocks on import

Limitations

Re-using the template

- Duplication/Re-using a template will create a copy of the current state of the course template however after changes are made to the original re-usable template they won't reflect on the courses created using that template before that change was made and those courses will have to be manually changed to reflect the new changes to the original course reusable template

Restore Limits

- When restoring another different course from another moodle, h5p content that existed in the other moodle but not the moodle it's being restored to will not show properly and will have to be made in the moodle being restored to

Site Level theming

- Due to not having access to the code to change around theming css and other related parts, things like the displayed logo and color scheme could not be changed to fit the brand book requirements
