

Card Task 37 Configure the reusable course shell in the OAPA dev course

By: Reshan Lahandapura (Dev 1)

Documentation Creation Date: 19/09/2026

Site: <https://academy.open-publishing.org/login/index.php>

Each of the content configured has placeholder text, none of it is tied to a specific course as it is supposed to be a general reusable template that course creators change around to fit their course content, this was made as a separate course and any of the current existing OAPA content courses are not altered

The Course template shown in the course menu

The course I configured was the “team 74 – course development” course as shown below
